Content

- DDA legislation
- Fire Safety legislation
- Fire safety and access & egress guidance
- Implications of building design on evacuation plans
- Preparing and managing Personal Emergency Evacuation Plans (PEEPs)
- The role of the “responsible person” in planning and managing evacuations
- The limits of fire and rescue service response
- Case studies and advice on specific issues.

Description

This seminar seeks to assist those responsible for providing access for people with disabilities and fire safety to resolve the perceived conflicts. Can the requirement to make “reasonable adjustments” be reconciled with making fire safety arrangements that are “reasonable in the circumstances of the case. What guidance exists to make the judgment of reasonableness?

Developed particularly for

Architects, Property Managers particularly those providing premises with significant public access, such as hotels and leisure, Access Officers in local authorities, Fire Safety Officers in enforcement authorities, Managers of commercial, public and third sector premises.
